

Cabo 40 Express

2003-13

The Cabo 40 Express is a full-on fishing machine with powerful lines and a class-leading 100 square feet of cockpit space—a top-tier boat when she came out in 2003. Built on a modified-V hull with a wide 15'9" beam and deep propeller pockets, the center helm position of the 40 Express is one of her more notable features. It's three steps up from the cockpit to the helm deck, where an L-shaped settee to port seats eight. Down the companionway is the saloon with the quality joinery and premium furnishings for which Cabo was known. The L-shaped sofa to starboard converts to upper/lower berths, and a full-service galley with an electric cooktop and Corian counters is to port, just forward of the large head compartment with a separate stall shower. A queen berth is in the private master stateroom. Standard features include a molded bow pulpit, teak and holly cabin sole, recessed trim tabs, 48-gallon transom livewell, fresh and raw water washdowns, cockpit bolsters, insulated in-deck fish boxes, bait prep center, lockable rod storage, bait freezer, and transom door. Cruise at 28–30 knots with 715hp Cat diesels; low to mid 30s with 800hp MANs.

Resale Value Estimates

Length w/Pulpit.....	42'10"	Headroom	6'3"
Beam.....	15'9"	Fuel	550 gals.
